I found your article, "How to Publish a Great User Manual," to be a bit naive and amusing in its simplification of a profession. As a broadly and variously experienced technical writer familiar with not only the profession, but also the history of and research in the area of technical writing, please understand that:

AskTog: How to Publish a Great User Manual

You have probably encountered active recall testing in your school years without even realizing it. When good teachers give you a series of questions to answer after reading an article, or make you take weekly progress-check tests, they are not doing it simply to see if you understood the material or not.
