Mark Mattson knows a lot about mice and rats. He's fed them; he's bred them; he's cut their heads open with a scalpel. Over a brilliant 25-year career in neuroscience—one that's made him a ...

The Mouse Trap: Can One Lab Animal Cure Every Disease?

Aggression is overt or covert, often harmful, social interaction with the intention of inflicting damage or other unpleasantness upon another individual. It may occur either reactively or without provocation. In humans, frustration due to blocked goals can cause aggression. Human aggression can be classified into direct and indirect aggression; whilst the former is characterized by physical or ...
