The branches of microbiology can be classified into pure and applied sciences, or divided according to taxonomy, as is the case with bacteriology, mycology, protozoology, and phycology. There is considerable overlap between the specific branches of microbiology with each other and with other disciplines, and certain aspects of these branches can extend beyond the traditional scope of ...

Microbiology - Wikipedia

Nematology is the scientific discipline concerned with the study of nematodes, or roundworms. Although nematological investigation dates back to the days of Aristotle or even earlier, nematology as an independent discipline has its recognizable beginnings in the mid to late 19th century.

Posts about C. diff. Lab Testing written by cdifffoundation. "The MultiPath platform's direct-from-specimen testing eliminates the need for an intermediate culture step, while the ultra-sensitive detection feature identifies the low number of cells that might be present in uncultured patient samples," said Bhargav Rajan, Leader, Medical Devices & Imaging Team at Frost & Sullivan.
