At Challenge Success, we believe that our society has become too focused on grades, test scores, and performance, leaving little time for kids to develop the necessary skills to become resilient, ethical, and motivated learners. We partner with schools, families, and communities to embrace a broad definition of success and to implement research-based strategies that promote student well-being ...

Challenge Success

What it Is: A blog about trying out different burgers and using them for design lessons and inspiration (really). Why We Love It: Because it's really the perfect example of a side project. It's something that you'd actually want to do in your free time (eat burgers), but it also allows the designers who started it to hone their skills.

The 51 Coolest Side Projects We've Ever Seen - The Muse

NOTE: The following stories seem to describe two kinds of "electric human" phenomena. One involves conventional static electricity, and the other is something more mysterious. If you *DON'T* get constant shocks when touching either people or metal objects, yet electronic devices often fail in your presence, then your problem is not strictly electrical.

Report your Unusual Phenomena: High Voltage People

Catholic resistance to Nazi Germany was a component of German resistance to Nazism and of Resistance during World War II. The role of the Church during the Nazi years was always, and remains however, a matter of much contention. Many writers, echoing Klaus Scholder, have concluded, "There was no Catholic resistance in Germany, there were only Catholics who resisted."
