Kigo (季語, "season word") is a word or phrase associated with a particular season, used in traditional forms of Japanese poetry. Kigo are used in the collaborative linked-verse forms renga and renku, as well as in haiku, to indicate the season referred to in the stanza. They are valuable in providing economy of expression.

Kigo - Wikipedia

The 2014–15 North American winter refers to winter in North America as it occurred across the continent from late 2014 through early 2015. While both the meteorological and astronomical definitions of winter involve the onset of winter occurring in December, many places in North America experienced their first wintry weather during mid November.

When a company buys new land, it is important to consider the property's suitability to house a server environment. Failing to do so often means having to spend more on Data Center infrastructure, either to add what's missing or to overcome shortcomings on the site. The most desirable type of location is one that supports the Data Center's mission to safeguard server equipment and accommodate ...
