@anhoppe: Well, it depends, or at least things are not always as they seem intuitively. When you use a class S that uses another class T, you do not need to know about T (or reference its assembly). However, when S inherits from T, you are, so-to-speak, also using T yourself (even though you might just be handling S), and thus need to reference T's assembly.

It has been a very busy few months. With all that is going on I am considering my UandU inspired quilt as a very slow cooking project. I have managed to make enough of these foundation pieced blocks to make a large enough bed quilt but the question is when will I be able to cut the center squares and actually make the quilt top.
