The National College Entrance Examination was created in 1952. The unified national tertiary entrance examination in 1952 marked the start of reform of National Matriculation Tests Policies (NMTP) in the newly established PRC. With the implementation of the first Five Year Plan in 1953, the NMTP was further enhanced. After repeated discussions and experiments, the NMTP was eventually set as a ...

A computer network is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as Wi-Fi.. Network computer devices that originate, route and terminate the data are called ...

vol 6 pg 1. A Philosophy of Education Book 1. Introduction. These are anxious days for all who are engaged in education. We rejoiced in the fortitude, valour and devotion shown by our men in the War and recognize that these things are due to the Schools as well as to the fact that England still breeds "very valiant creatures."
