We'd like to get an idea of what versions of ROS people are using and how long they want those versions supported. If you could fill out this short survey, that would help us to make decisions on where we should focus our efforts for ROS1. We'll leave the survey open for 2 weeks, until April 4, 2018, and post the results shortly after that.

A fuzzy concept is a concept of which the boundaries of application can vary considerably according to context or conditions, instead of being fixed once and for all. This means the concept is vague in some way, lacking a fixed, precise meaning, without however being unclear or meaningless altogether. It has a definite meaning, which can be made more precise only through further elaboration ...
