Abiogenesis, or informally the origin of life, is the natural process by which life has arisen from non-living matter, such as simple organic compounds. While the details of this process are still unknown, the prevailing scientific hypothesis is that the transition from non-living to living entities was not a single event, but a gradual process of increasing complexity that involved molecular ...

The National College Entrance Examination was created in 1952. The unified national tertiary entrance examination in 1952 marked the start of reform of National Matriculation Tests Policies (NMTP) in the newly established PRC. With the implementation of the first Five Year Plan in 1953, the NMTP was further enhanced. After repeated discussions and experiments, the NMTP was eventually set as a ...
