Native American Pueblo. Pueblo homes were built of bricks made from adobe clay. The bricks were made by mixing clay, sand, grass, and straw together and then setting them in the sun to harden. Once the bricks were hard, they would be used to build walls which were then covered with more clay to fill in the gaps.

Modern tipis usually have a canvas covering. A tipi is distinguished from other conical tents by the

smoke flaps at the top of the structure. Historically, the tipi has been used by Indigenous people of the Plains in the Great Plains and Canadian Prairies of North America. They are still in use in these communities,...

### **Tipi - Wikipedia**

Indian Tepees were well built and mobile so tribes could move around. Of course, smaller tepees were also an option. Traditionally, Indian tepees were crafted by hand. To create a sturdy dwelling, craftsmen had to select strong wood and thick materials. Quality Indian tepees often used the skin of elk.

Tepee definition, a tent of the American Indians, made usually from animal skins laid on a conical frame of long poles and having an opening at the top for ventilation and a flap door. See more.

### **Tepee | Definition of Tepee at Dictionary.com**

Why do some ideas spread, while others die off? Does human culture have its very own "survival of the fittest"? And if so, does that explain why our species is so different from the rest of life on Earth? Throughout history, we humans have prided ourselves on our capacity to have ideas, but perhaps this pride is misplaced. Perhaps ideas have us.
