What is your background? Are you a Mathematics major, or a Physics / Engineering major? The purpose of the Laplace Transform is to transform ordinary differential equations (ODEs) into algebraic equations, which makes it easier to solve ODEs. However, the Laplace Transform gives one more than that: it also does provide qualitative information on the solution of the ODEs (the prime example is ...

Hawking radiation is black-body radiation that is predicted to be released by black holes, due to quantum effects near the event horizon.It is named after the physicist Stephen Hawking, who provided a theoretical argument for its existence in 1974.. Hawking radiation reduces the mass and energy of black holes and is therefore also known as black hole evaporation.
