I had the great pleasure and challenge of reading Karen Barad's Meeting the Universe Halfway: Quantum Physics and the Entanglement of Matter and Meaning. I review the book here in hopes to share new perspectives on Barad's arguments. Most popular and academic reviews (mostly by those in softer sciences rather than physics) seem uncomfortably favorable...

Meeting the Universe Halfway is a remarkable accomplishment. In it the author presents her philosophy-physics agential realism. As developed in this book, the power of agential realism to resolve paradoxes of quantum physics that have, until now, defied explanation is quite amazing; as is its application in fields such as sociology, epistemology, and ethics.
