Cellulose can be found in popular products ranging from crackers and ice cream to pizza sauce and barbecue sauce. What many do not realize, however, is that cellulose is actually wood pulp.Unable to be digested by humans due to the lack of necessary enzymes needed to break the ingredient down, cellulose has been deemed 'safe for consumption' by the FDA.

In the next two articles we're going to discuss the concept of "normal" blood sugar. I say concept and put normal in quotation marks because what passes for normal in mainstream medicine turns out to be anything but normal if optimal health and function are what you're interested in.. Here's the thing. We've confused normal with common.
