### **Full Blue Moon 2019 UK: Once in a blue moon and other superstitious beliefs | London Evening Standard**

Most seasons have three full moons. But once in a while, a season — like spring of this year — will have four full moons. And it's the third of those four that's called a blue moon.

### **Blue moon 2019: This month's full moon is Saturday**

Here's how a full moon works: The moon is a sphere that travels once around Earth every 27.3 days. It also takes about 27 days for the moon to rotate on its axis. So, the moon always shows us the same face; there is no single "dark side" of the moon.
