Biology If8765 Male Reproductive System Worksheets ...

The testes (singular = testis) are the male gonads—that is, the male reproductive organs. They produce both sperm and androgens, such as testosterone, and are active throughout the reproductive lifespan of the male. Paired ovals, the testes are each approximately 4 to 5 cm in length and are housed within the scrotum.

The Female Reproductive System Almost all of a female's sexual organs are located inside the body. Just as a male has a pair of testes, a female has a pair of ovaries (singular ovary). The ovaries contain the female sex cells (eggs) and produce the hormone estrogen. Ovaries are located in a female's abdomen as shown in the image below.
