When we were selling them, all MyDIYCNC Complete Kits and Turnkey Systems included a year's paid subscription to Autodesk Fusion360 Pro! We've partnered with Autodesk to create a MyDIYCNC FabCAM post processor for their powerful CAM applications. Now you can export GCode straight from Fusion 360, HSMWorks and HSMXpress for processing on your MyDIYCNC Desktop CNC Machine.

How to Make a Mini Milling Machine- Manual or CNC!: I think one of the best things about tools is that they can be used to make more tools! I decided to build a miniature milling machine for machining plastic parts, creating wax patterns and for drilling really small precise holes. I also wanted to...

How to Make a Mini Milling Machine- Manual or CNC!: 14 ...

A crane is a type of machine, generally equipped with a hoist rope, wire ropes or chains, and sheaves, that can be used both to lift and lower materials and to move them horizontally. It is mainly used for lifting heavy things and transporting them to other places. The device uses one or more simple machines to create mechanical advantage and thus move loads beyond the normal capability of a human.

Crane (machine) - Wikipedia

Go beyond a traditional user interface to automate metadata-based bots with SAP Intelligent Robotic Process Automation services. Capture user interactions with the robotic process automation tools and software you need to build intelligent bots with machine learning and conversational AI for hands-free execution and bot stability.
