How do I set a monitor resolution that is not available in ...

I am using an ASUS monitor model ML228, ATI Radeon HD 3300 Graphics, and Windows 7 32-bit. I have used this monitor before at the correct resolution of 1920x1080, but now it is not available to select from the screen resolution manager.

Can't select correct screen resolution | Tom's Hardware Forum

However, the second monitor's resolution was not available in the list of resolutions. This was mystifying. So I went into the NVIDIA control panel to check my graphic card's settings and upon inspection it reported that the second monitor's native resolution was 1024 pixels by 768 pixels. Since I knew the correct resolution was 1440 pixels by ...

What to do if your second monitor screen resolution is ...

How can I set monitor resolution to 1920x1200 if its not available? I have a Samsung 24" monitor and windows 7 ultimate. The only problem is that I only have 3 resolutions available which are: 800x600, 1024x768, and 1280x1024.

How to Fix NVIDIA Resolution Problems in Windows 10 ...

1920x1080 resolution not available. ... I recently "upgraded" to windows 10 Tech. Preview and I cannot change my resolution to HD. My current monitor is a Samsung, and its optimal resolution is 1920x1080. The highest I am allowed to select is 1280x1024 in a landscape orientation. My GeoForce Experience application also does not function.

1920x1080 resolution not available

The display resolution or display modes of a digital television, computer monitor or display device is the number of distinct pixels in each dimension that can be displayed. It can be an ambiguous term especially as the displayed resolution is controlled by different factors in cathode ray tube (CRT) displays, flat-panel displays (including liquid-crystal displays) and projection displays ...

Display resolution - Wikipedia

monitor native resolution not available with amd graphics card. Ask Question 2. 1. I got my new LG ea93 monitor with a native resolution of 2560x1080 (21:9), but in the windows screen resolution setup and in the catalyst control center the highest resolution available is 1920x1080. I have a HD7870 graphics card, which is supposed to support ...

windows 7 - monitor native resolution not available with ...

It is not the video card driver -- as he has mentioned it is the fact that windows 7 does not have the .inf file for his monitor and thus is using the generic non-plug n play monitor inf - which means it will only have very limited choices of resolution that almost any monitor can be run on -- in order to change this he either needs the inf file for his specific model of monitor to install ...
