SDN and NFV is the next phase of technology change which will help service provider to launch the services in single click. This is all about the programmability of the networks by using open source software defined network controller.

MPLSVPN - Moving Towards SDN and NFV Based Networks

If repairing the catalog doesn't help, repeat the steps above, but instead of clicking Repair, click New to create a new test catalog. If you're able to import photos into the new catalog and the Organizer works correctly, then there's likely something about the old catalog that is corrupted in some other way. In that case, try recreating the Organizer's thumbnails.
