Varray in oracle : In my previous article, I have explained about complex types of PL SQL as well as different scalar datatypes with examples. In this article I will try to explain about the Varray in oracle. Varrays are nothing but variable size arrays, which will hold the fixed number of elements from database. Varray in oracle is also known as varying array type.

Oracle Varray Examples - Interview Questions of SQL and C

A view uses a query to pull data from the underlying tables. A materialized view is a table on disk that contains the result set of a query. Materialized views are primarily used to increase application performance when it isn't feasible or desirable to use a standard view with indexes applied to it.
