Most homeowners call electricians in an emergency or if they're building or remodeling. It's important to research a contractor and find a skilled electrician before you need one. By building a rapport with an electrician, you can be sure that they will be there to help when you need their services.

### **Electricians - Find and Hire Electrician | Angie's List**

If a knob and tube system is intact and working, it poses no immediate risk to you and your family. Problems often arise, however, because of the age of the installation or modifications made to the electrical system by a previous owner or unscrupulous electrician.. One of the most common problems with this kind of wiring is its insulation, which is made of rubber instead of plastic.
