Free and open-source software (FOSS) is software that can be classified as both free software and open-source software. That is, anyone is freely licensed to use, copy, study, and change the software in any way, and the source code is openly shared so that people are encouraged to voluntarily improve the design of the software. This is in contrast to proprietary software, where the software is ...

2018 Agenda - Texas Conference for Women

@PeterSchuetze: Sure it's not pretty for very very long words, but it is a viable and correct solution. Although I haven't run tests on the performance, I wouldn't imagine it being too slow since most of the latter rules are ignored until you see an h (or the first letter of the word, sentence, etc.).
