Today, on World Water Day, we're proud to showcase a new platform enabling all countries to freely measure and monitor when and where water is changing: UN's Water-Related Ecosystems, or sdg661.app.Released last week in Nairobi at the UN Environment Assembly (UNEA), the app provides statistics for every country's annual surface water (like lakes and rivers).

A new app to map and monitor the world's freshwater supply

Reliable intellectual property (IP) statistics are an important tool in understanding trends in policy, business, and technology worldwide.. We cooperate with IP offices from around the world to provide the most up-to-date global IP data. We also publish statistical reports on worldwide IP activity and on the use of WIPO-administered treaties in protecting IP rights internationally.
