Adequate social support enhances a person's ability to cope better and adapt more quickly to life's setbacks, changes, and transitions. [ref 4] One study found that people who reach out to others for support are more likely to adopt healthy behaviors under stress and to be more confident and optimistic about the future.

How to Relax the Nervous System Naturally | Livestrong.com

Feature detection is a process by which the nervous system sorts or filters complex natural stimuli in order to extract behaviorally relevant cues that have a high probability of being associated with important objects or organisms in their environment, as opposed to irrelevant background or noise.. Feature detectors are individual neurons—or groups of neurons—in the brain which code for ...

Feature detection (nervous system) - Wikipedia

First-Hand Experience With the Benefits of Yoga. I myself have experienced yoga's healing power in a very real way. Weeks before a trip to India in 2002 to investigate yoga therapy, I developed numbness and tingling in my right hand. After first considering scary things like a brain tumor and multiple sclerosis, I figured out that the cause of the symptoms was thoracic outlet syndrome, a nerve ...

2.2. Quality assessment. Studies of CTP were predominantly cross-sectional and we assessed the quality of these studies on a 10-point scale based on a version of the Newcastle-Ottawa Scale (Wells et al., 2000) adapted to evaluate cross-sectional studies (Herzog et al., 2013). Assessment was based on dimensions including measurement of outcome, sample selection, and comparability of groups.
