In physics and cosmology, digital physics is a collection of theoretical perspectives based on the premise that the universe is describable by information. It is a form of digital ontology about the physical reality. According to this theory, the universe can be conceived of as either the output of a deterministic or probabilistic computer program, a vast, digital computation device, or ...

Consciousness and the New Physics. Space-Time According to Einstein. The special theory of relativity, formulated by Albert Einstein in 1905, is based on the experimentally confirmed idea that the velocity of light is the same universal constant, $c = 3 \times 10^{10}$ cm./sec., for all observers who move uniformly in straight lines relative to each other.

You could use advanced options to run Google tests.. To run only some unit tests you could use `--gtest_filter=Test_Cases1*` command line option with value which is regular expression. I think it will solve your problem. UPD: Well, the question was how to run specific test cases. Integration of gtest with your GUI is another thing, which I can't really comment, because you didn't provide details ...

This week, we've looked at calculating radiation doses. The absorbed dose D , measured in Grays (Gy), takes into account the energy E absorbed and the mass m of the absorbing tissue.. The higher the energy, the greater the absorbed dose. If you are wondering why the absorbing mass is important, consider the different masses of tissue involved in a dental x-ray and a chest x-ray....
