Project Drawdown is the most comprehensive plan ever proposed to reverse global warming. We gathered a qualified and diverse group of researchers from around the world to identify, research, and model the 100 most substantive, existing solutions to address climate change. What was uncovered is a path forward that can roll back global warming within thirty years.

Natural fibers or natural fibres (see spelling differences) are fibres that are produced by plants, animals, and geological processes. They can be used as a component of composite materials, where the orientation of fibers impacts the properties. Natural fibers can also be matted into sheets to make products such as paper, felt or fabric.. The earliest evidence of humans using fibers is the ...
