About the Olympiad. The Olympiad competition is an exam consisting of five challenging problems requiring only the mathematics appropriate for students' grade level. Participants are divided into three groups: Grades 5-6, Grades 7-9, and Grades 10-12 and given three hours to write solutions to these problems. Participation is free and open to all students interested in mathematics.

**MATH Olympiads - Mathematics at Ghent University**

The International Mathematical Olympiad (IMO) is the most important and prestigious mathematical competition for high-school students. It has played a significant role in generating wide interest in mathematics among high school students, as well as identifying talent. In the beginning, the IMO was a much smaller competition than it is today.

Problems and solutions from the 53rd International Mathematical Olympiad 2012

**The 53rd International Mathematical Olympiad: Problems and ...**

From 1972 until 1995 each competition had a single paper of 5 questions (to be solved in 3 1/2 hours). Thereafter each competition has had two papers each with 3 questions (originally 3 hours for each paper, 4½ hours from 2002). So there are a total of 168 problems to date. I have put up solutions for all problems.
