What Lionni's story captures so effectively is a fundamental insight about learning: new understandings are constructed on a foundation of existing understandings and experiences. With research techniques that permit the study of learning in infancy and tools that allow for observation of activity in the brain, we understand as never before how actively humans engage in learning from the ...

TASTING BEER, SECOND EDITION. This book began as an outline for a two-day class I teach for the Siebel Institute in Chicago. The course was intended as an immersive introduction to the world of beer, and the book follows that format, introducing the reader to all aspects of beer, from its long and fascinating history to vocabulary and styles, with much more in-between.
