About the Book. David W. Ball of Cleveland State University brings his new survey of general chemistry text, Introductory Chemistry, to the market with a fresh theme that will be sure to hold student interest: "Chemistry is Everywhere."Introductory Chemistry is intended for a one-semester introductory or preparatory chemistry course. Throughout the chapters, David presents two features that ...

Introductory Chemistry - Open Textbook Library

Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

The start of Western alchemy may generally be traced to ancient and Hellenistic Egypt, where the city of Alexandria was a center of alchemical knowledge, and retained its pre-eminence through most of the Greek and Roman periods. Here, elements of technology, religion, mythology, and Hellenistic philosophy, each with their own much longer histories, combined to form the earliest known records ...

66 Study Guide for An Introduction to Chemistry Section Goals and Introductions Section 6.1 An Introduction to Oxidation-Reduction Reactions Goals To describe what oxidation and reduction mean to the chemist. To describe chemical reactions for which electrons are transferred (oxidation-reduction reactions). To describe oxidizing agents and reducing agents.

Chapter 6 Oxidation-Reduction Reactions - Mark Bishop

The history of the chemical bond. When discussing the history of chemistry it's always dangerous to point to the specific origin of an idea, since by its very definition, the scientific process relies upon the gradual refinement of ideas that came before. However, as is the case with a number of such ideas, one can point to certain seminal moments, and in the case of chemical bonding, a ...

Chemistry Sets and Other Tools of the Devil. Mr. Gilbert had a very strong belief in the educational value of Science Kits. He felt that a wide variety of educational toys could bring out the engineer or scientist in any Boy and made a very broad array of kits to offer something that would have a special resonance with The Boy.
