Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. GbE doesn't use a different cable; it's rated for Cat5 or Cat5 Enhanced, which were existing cable standards used with 100Base-T. Unlike 100Base-T it actually uses all four conductor pairs for communication, meaning a faulty or below-spec Cat5/6 cable can work fine for 100Base-T if the fault is in one of the conductor pairs not used in that standard, but fail for 1000Base-T.
