An important side dish to the main course of Designing Climate Solutions is the energy policy simulator that Energy Innovation developed internally to create the models in this book. But, luckily for us in the clean energy community, they didn't stop there and Energy Innovation made the tool open source and available to the public over the web.

A Potential New Climate Policy Bible: Reviewing 'Designing ...

The design process is never linear, but in short my process goes similar to this: Listen to the client & define design brief > Proposal > 50% deposit > Research > Conceptualising > Rendering > Presentation > Revisions > Final 50% > Delivery > Support. You can read about my design process in full here.
