Wastewater treatment is a process used to remove contaminants from wastewater or sewage and convert it into an effluent that can be returned to the water cycle with minimum impact on the environment, or directly reused. The latter is called water reclamation because treated wastewater can then be used for other purposes. The treatment process takes place in a wastewater treatment plant (WWTP) ...

Wastewater treatment - Wikipedia

This page contains the glossary of terms used in the Assistance to Firefighters Grants Program. The intended audiences are AFG stakeholders, which include but are not limited to award recipients and the communities they serve. Additional grant specific terms for the Fire Prevention and Safety Grants can be found in the FP & S Research and Development Glossary.
