In text processing, a proximity search looks for documents where two or more separately matching

term occurrences are within a specified distance, where distance is the number of intermediate words or characters. In addition to proximity, some implementations may also impose a constraint on the word order, in that the order in the searched text must be identical to the order of the search query.

Proximity search (text) - Wikipedia

Billings Learned Hand (/ ˈ l ɜː r n ɪ d /; January 27, 1872 – August 18, 1961) was an American judge and judicial philosopher. He served on the United States District Court for the Southern District of New York and later the United States Court of Appeals for the Second Circuit. Hand has been quoted more often by legal scholars and by the Supreme Court of the United States than any other ...

To save them, scientists must first find them. Sawfish are large rays with long, chainsaw-like nose extensions, called rostrums, that they use to find and stun prey in murky water.

Searching for the world's last remaining sawfish

Alcohol use disorder (AUD) is a condition that health care professionals diagnose when a patient's drinking pattern causes significant distress or harm. Previously known as alcohol abuse or alcoholism, AUD can be mild, moderate, or severe. AUD can cause lasting changes in the brain that make patients vulnerable to relapse.
