National Geographic (formerly the National Geographic Magazine and branded also as NAT GEO) is the official magazine of the National Geographic Society. It has been published continuously since its first issue in 1888, nine months after the Society itself was founded. It primarily contains articles about science, geography, history, and world culture.

Orangutans are one of the world's least understood large land animals because they are solitary and live in hard-to-reach places. Since 1992, biological anthropologist Cheryl Knott and wildlife photojournalist Tim Laman have been using innovative techniques and new technologies to gain a closer look at this intelligent, resourceful—and threatened—species.
