But the secret behind a good night's sleep, often an elusive goal for new parents, is not always easy to pinpoint. "Does my kid sleep well through the night totally?

Light Bulbs That Help You Sleep - The New York Times

The pattern of waking during the day when it is light and sleeping at night when it is dark is a natural part of human life. Only recently have scientists begun to understand the alternating cycle of sleep and waking, and how it is related to daylight and darkness.. A key factor in how human sleep is regulated is exposure to light or to darkness.
