**Math Solutions Number Talks 2 2 Addition 16+15**

The key elements to number talks are a de-emphasis on speed and right answers and an added emphasis on process and communication. Here's how they work: The teacher writes a problem on the board. It can be as simple (like  $9 + 17$ ) or complex ( $500 \div 24$ ) as long as it is appropriate as a mental math problem for the class.

**Number Talks | Math for Love**

Number talks were developed for classroom teachers to engage students in "mental math" through grappling with interesting mathematics problems. Educators can use number talks regularly as introductions to the day's mathematical practice, as "warm ups" for other lessons, or as stand-alone extended engagements with mathematical concepts.
