Ran oil of oil, restarted unit, it came on and then just shut down. I can't get it to come back on to even bleed the line. It is like it has no power, I have hit the reset but nothing happens, and when it is tripped the light doesn't even come on on the control (Honeywell) with 45 second delay. What should I check?

There are collective myths by which we interpret our reality. These myths are obstacles to creating what you want in life. The myths are given to us by experts because that is what they went to school to learn.. The only truth you will get from highly educated people comes from a few great intellectuals which the establishment won't dare attack, like Einstein and Max Planck.
