Compounds and Mixtures - BrainPOP

The Mixtures and Solutions Module has five investigations that engage students with the phenomena of matter and its interactions in our everyday life—mixtures, solutions, solubility, concentration, and chemical reactions. The driving question is what is matter and what happens when samples of matter interact?

Module Summary - Mixtures and Solutions - FOSS

Solutions and Mixtures Before we dive into solutions, let's separate solutions from other types of mixtures. Solutions are groups of molecules that are mixed and evenly distributed in a system. Scientists say that solutions are homogenous systems. Everything in a solution is evenly spread out and thoroughly mixed.

Mixtures Educational Videos | WatchKnowLearn

A suspension is a heterogenous mixture containing large particles that will settle on standing. Sand in water is an example of a suspension. A solution is a homogenous mixture of two or more substances where one substance has dissolved the other. An example of a solution is saltwater . Colloids are homogenous mixtures where the particles are small enough that they stay suspended.

Mixtures & Solutions Lesson for Kids: Definitions & Examples

This lesson plan introduces students to the properties of mixtures and solutions. It includes teacher instructions for a class demonstration that gives students the chance to compare and contrast the physical characteristics of some simple mixtures and solutions.

Properties of Mixtures vs. Solutions: Mix It Up! - Lesson ...

Here is a cool video on the seperation of mixtures. Here is another cool video. It's about heterogeneous mixtures and homogeneous mixtures. Here is a little video on mixtures and solutions.

Videos | Mixtures for Kids

Mixtures can then be broken down into homogeneous and heterogeneous. A homogeneous mixture is called a solution: salt or sugar and water, air (solution of gases). These have a constant composition throughout the solution. A heterogeneous mixture would be: salt with sugar (no water), water with gasoline or oil, salt with sand.

Mixture or Solution? - CPALMS

This page is for displaying the resources of a particular module (derived from the module folio), filtering it and organizing it based on user role and entitlement. This is an all-purpose page in that it works across all roles and entitlement levels.
