Sure, "market revolution" is a fitting label for the economic transformation that occurred in America during the first half of the 19th century: it acknowledges that radical changes occurred and that the key to these changes lay within the character and size of the market. But the term's also useful for what it acknowledges by omission.

The Market Revolution Changes like those brought by the Erie Canal contributed to vast economic changes in the first half of the 19th century in the United States. In this period, known as the market revolution, people increasingly bought and sold goods rather than make them for themselves. A lock on the Erie Canal in Lockport, New

### **The Market Revolution - mrlocke.com**

After the Market Revolution, more and more Americans went to work instead of working from home. The Market Revolution also changed the way we imagined work and leisure time. Like, on farms, the seasons and hours of daylight regulated the time for work, but in factories, work is regulated by the clock.

### **Nerdfighteria Wiki**

The Market Revolution, or the economic expansion that occurred in America between 1815 and 1840, began with infrastructure changes. Roads and canals were built, enabling travel and the ability to move goods to and from other areas of the country. The Market Revolution also brought many inventions that changed the way things were done.
