Since its debut less than a decade ago, CRISPR-Cas9 gene editing has inspired its share of grandiose and cautionary forecasts: that we might soon be able to resurrect beasts from the ancient past, for example, or (that classic genetic manipulation controversy) create designer babies. While such applications may never see the light of day, the technology is already

This Beekeeping Library consists of articles, books and webinars on basic beekeeping, beehive construction, bee diseases and parasites, feeding bees, native pollinators, insecticides, plants, natural beekeeping, recipes, education and farming. The library is relatively new and we are adding to it regularly. All of the library material is free to preview and download.

Strathcona Beekeepers: The Beekeepers' Library

Scientists continue the search for answers regarding causes, diagnoses, and treatments for Alzheimer's disease. One promising target is beta-amyloid, a protein that builds up into plaques, and researchers are working on several ways to clear beta-amyloid from the brain or prevent it from clumping together to form plaques.
