Best Answer: No I don't think it's ever too late to tell the truth, however with all that you have stated I can't emphatically say without knowing more details that it is important to tell the truth now. If it is something that affects the health and well being of someone and they need to know so that they can seek medical treatment, then yes by all means tell the truth.

You shouldn't date one person (thinking it means something) until you know him better. You never know who is going to flake out and disappear, so don't limit your options too early. That's why I recommend dating multiple people in the beginning so you can see who offers the best match for you. And who sticks around.
