Polynomial Graphs and Roots. We learned that a Quadratic Function is a special type of polynomial with degree 2; these have either a cup-up or cup-down shape, depending on whether the leading term (one with the biggest exponent) is positive or negative, respectively. Think of a polynomial graph of higher degrees (degree at least 3) as quadratic graphs, but with more twists and turns.

Daniel Pink, author of Drive (Riverhead, 2009) and A Whole New Mind (Riverhead, 2006), has looked at four decades of scientific research on human motivation and found a mismatch between what science tells us and what organizations actually do. In this interview with Educational Leadership, Pink shares his insights on how schools can create more optimal conditions for learning—and how they can ...

Motivated to Learn: A Conversation with Daniel Pink ...

Geometric algebra is a very convenient representational and computational system for geometry. We firmly believe that it is going to be the way computer science deals with geometrical issues.

Geometric Algebra: A collection of useful resources ...

Tuning is the process of adjusting the pitch of one or many tones from musical instruments to establish typical intervals between these tones. Tuning is usually based on a fixed reference, such as A = 440 Hz. The term "out of tune" refers to a pitch/tone that is either too high or too low in relation to a given reference pitch. While an instrument might be in tune relative to its own range of ...
