WALTER KAUFMANN: We know environmental stimulation, sensory stimulation, auditory, visual stimulation, have an impact on brain development and brain function.

NOVA | Transcripts | Ghost in Your Genes | PBS

In a compelling scientific detective story, The Ghost in Your Genes explores the provocative idea that there may be more to inheritance than genes alone. New clues reveal that a second epigenetic chemical code sits on top of our regular DNA and controls how our genes are expressed, turning them on or off with dramatic consequences for our health.
