The history of chemistry represents a time span from ancient history to the present. By 1000 BC, civilizations used technologies that would eventually form the basis of the various branches of chemistry. Examples include extracting metals from ores, making pottery and glazes, fermenting beer and wine, extracting chemicals from plants for medicine and perfume, rendering fat into soap, making ...

Interesting news from Russia in English language. Guys (1) these houses are not medieval – one was built in 1897 another one in 1903 (2) the one with furniture is not abandoned – it belongs to a friend, an artist who bought it from village council back in 1972 and saved it from destruction like the other one, since the village became abandoned.
