Targeted advertising is a form of online advertising that is directed towards audiences with certain traits, based on the product or person the advertiser is promoting. These traits can either be demographic which are focused on race, economic status, sex, age, the level of education, income level and employment or they can be psychographic focused which are based on the consumer's values ...

Targeted advertising - Wikipedia

In probability theory and statistics, the negative binomial distribution is a discrete probability distribution of the number of successes in a sequence of independent and identically distributed Bernoulli trials before a specified (non-random) number of failures (denoted r) occurs.For example, if we define a 1 as failure, all non-1s as successes, and we throw a die repeatedly until 1 appears ...
